

Verse 1

Give it to my loud  
Right now  
Every single sound  
Is getting me through  
I been fucking down  
For a while  
I'm not gonna drown when I'm floating in you

Put it on repeat

I wanna hear music  
Blasting Through The Speakers  
I wanna feel music  
Feel it all the way  
I wanna live music  
I love it when it's  
blasting through the speakers

Verse 2

I can be myself with you  
I can dance around naked  
You don't mind what I'm going through  
I don't have to fake it  
I could drink case of you  
Bobby said don't worry  
You know what I'm going through  
You got words to cure me

Put it on repeat

I wanna hear music  
Blasting Through The Speakers  
I wanna feel music  
Feel it all the way  
I wanna live music  
I love it when it's  
blasting through the speakers
